Downtown Development Authority

4 November 2002

Dear Mr. Lamberth,

As you know, in 2001, the City of Ann Arbor selected Lamberth Consulting to assist the City in reviewing the police department's stop data collection methods, and to analyze the data that has been compiled. Drawing on Lamberth's expertise, insight, and flexibility, we were able to collaboratively develop a program that met our unique community needs and circumstances, which was an important reason for Lamberth's selection as our consultants on this project.

Over the past eighteen months there has been a great deal of work completed, including the collection of exhaustive benchmark data, revisions to our police department's stop data collection tools, and educational sessions with our police officers. The study is now scheduled for completion in the coming months, and we are appreciative that Lamberth Consulting's professionalism will contribute a great deal to the community's sense of trust over the study's outcomes.

I would highly recommend this team to any other police or government agency interested in looking at this important issue.

Sincerely,

Susan Pollay, Former Associate City Administrator  
City of Ann Arbor
